Introducing DSS Mobile

Our Solution for a Transformed Future

DSS Mobile is not just a data destruction solution; it's a complete overhaul of your operations, unlocking the potential for unprecedented speed, security, and efficiency.

Ditch the spreadsheets and manual workflows; DSS Mobile is your gateway to a streamlined, automated, and secure future.

Streamlined Reporting and Certification

Say Goodbye to Manual Madness

Automated Reports and Certificates

Forget the endless paper chase. DSS Mobile automatically generates detailed reports and individual certificates for every device processed, including:

- Device type, serial number, destruction method, timestamp, and unique identifiers like job number and client name for effortless tracking
- Comprehensive asset grading for informed decision-making
- Downloadable PDFs for immediate client presentation, exceeding expectations with promptness and transparency

Enhanced Traceability and Transparency

Build trust and simplify inventory management with our unique Parent-Child relationship structure.

- Every device (Parent) is presented with its full specifications and job information
- Associated data bearing components (Children) like hard drives are clearly linked, with dedicated download links for individual data destruction certificates
- This granular traceability simplifies internal record-keeping and allows you to demonstrate compliance with ease

Seamless Integration

No System Disruption, Just Workflow Evolution

DSS Mobile plays nice with your existing workflow. Upload asset information with unique identifiers, prepare devices for secure transfer, and let DSS Mobile take care of the rest. No need for disruptive system overhauls or relearning curves – integrate flawlessly and start experiencing the benefits immediately

Scalability and Efficiency

Handle the Data Mountain with Confidence

As your business grows, so does your need for efficient data destruction. DSS Mobile's automated process scales effortlessly, accommodating increased demand and new business opportunities without sacrificing accuracy or security. Leave manual bottlenecks in the dust and focus on expanding your reach and exceeding client expectations

Unwavering Security

Your Clients' Data is Our Top Priority

Data security is our foundation, not just a buzzword. DSS Mobile adheres to the most stringent industry standards, ensuring complete data erasure and peace of mind for you and your clients:

- **NIST 800-88 Compliance**
Our processes meet the rigorous guidelines set by the National Institute of Standards and Technology, exceeding government regulations and client expectations
- **ADISA Product Assurance Certification**
This prestigious certification signifies that our methods have undergone painstaking testing and validation, surpassing industry benchmarks and solidifying your position as a trusted data security partner

Downloadable CSV Reports

Simplify Data Integration and Boost Efficiency

Forget manual data entry drudgery and embrace seamless integration. The DSS Portal allows you to download all or specific asset data in CSV format, effortlessly connecting with your existing asset management systems:

- **Minimise human error and redundancy**
Eliminate typos and transcription mistakes with automated data transfer, ensuring data accuracy and saving you valuable time.
- **Streamline workflow and boost operational efficiency**
Focus on core tasks instead of wrestling with spreadsheets, reducing workload and improving internal resource allocation
- **Enjoy peace of mind with consistent data across platforms**
Simplify audits and maintain a single source of truth, leading to increased clarity and operational confidence

Faster Turnaround Times

Exceed Client Expectations and Leave Competitors in the Dust

Leave snail-paced reporting in the past. Automated reports and certificates significantly reduce processing times, enabling you to:

- **Complete projects faster**
Happy clients mean repeat business and a thriving ITAD operation. By exceeding expectations with prompt turnaround times, you build trust and solidify your competitive edge
- **Improve internal efficiency**
Free up valuable resources for other critical tasks, such as client acquisition and business development, maximising your overall operational effectiveness
- **Enhance client satisfaction**
Deliver immediate proof of destruction and transparent reporting, exceeding expectations and fostering stronger client relationships

Reduced Human Error

Minimise Risk and Ensure Impeccable Accuracy

Embrace the power of automation and eliminate the risk of human error in data entry and report generation. DSS Mobile ensures:

- **Accurate reports and certificates:**
Avoid costly mistakes and compliance issues with reliable, automated data processing
- **Enhanced data integrity**
Maintain trust with clients and internal stakeholders by providing verifiable proof of destruction and eliminating data discrepancies
- **Streamlined audit preparation**
Simplify the audit process with detailed erasure reports, demonstrating compliance with ease
